I na poslednjoj, četvrtoj, kartici možete videti koliko je vaš igrač dobar za PvP mečeve (igrač protiv igrača), sva postignuta dostignuća u ovim mečevima,... Ovaj deo igre je namenjen samo za zabavu i ne utiče na razvoj vašeg igrača. Možete kreirati tim ili da se priključite drugom timu i da tako igrate ove zabavne utakmice. Nećete gubiti fitness, nećete dobijati dodatne skilove, ali će te se zato dobro zabaviti.

Hajde sada da se vratimo na najvažniju stvar u ovoj igri.....**TRENING!!!**

Ovo će vam odrediti koliko će vaš igrač biti dobar kada krenu ozbiljne utakmice za vas, kada budete branili zastavu svoje zemlje i kluba. Do tada, imati dobar i kvalitetan trening je najvažnije. Za sve vrste igrača šema treninga je ista, samo se razlikuju skilovi koji se treniraju za poziciju vašeg igrača.

Ovako izgleda trening strana:

U gornjoj tabeli možete da vidite koji je **TIMSKI TRENING** namešten za celu nedelju. Ovaj deo je postavljen od strane vašeg menadzera i on time određuje šta vi treba da trenirate. U istoj tabeli se nalazi **INDIVIDUALNI TRENING**, koji vi podešavate, odnosno određujete šta će vaš igrač trenirati. Moj **SAVET**, kao i savet svih iskusnih igrača, je da namestite isto kao što je namestio i vaš menadzer na **TIMSKOM TRENINGU!!!** Sigurno se pitate zašto?! Razlog je jednostavan. Kada sledite **TIMSKI TRENING** (kada podesite sve **ISTO** kao vas menadzer), za svaki isto podesen trening dobićete 100% tog treninga. Ako ne podesite isto, kao sto je vas **TIMSKI TRENING**, onda dobijate negativne penale (kazne). Kazne dobijate za svaki slot koji nije podesen isto kao sto je vas menadzer podesio. VERUJTE MI, samo zbog toga nećete moći da igrate za neki vrhunski klub ili za vašu reprezentaciju, jer vaš igrač neće imati dovoljan broj skilova.

Naravno, nekada će te napraviti izuzetak. Zato što igrači odbrane ne treba da treniraju "Finishing", kao sto ni napadači ne treba da treniraju "Tackling". Kada pratite TIMSKI TRENING, za svaki slot (trening) će te izgubiti 2% fitnesa, a kada ne pratite gubićete 1% fitnesa za svaki trening. Svakog dana, trening se dešava 3 puta! U 00:00, 08:00, 16:00 (po serverskom vremenu). Kada ne partite TIMSKI TRENING, još jedna bitna stvar je da trenirate jedan skil ceo dan!!! Pitajte se zašto?! Zato što će te dobiti extra bonus na trening zbog toga.

Ovako izgleda dobro postavljen trening:

00:00 Speed
08:00 Speed
16:00 Speed

Ovako izgleda loše postavljen trening:

00:00 Speed
08:00 Stamina
16:00 Speed

U primeru dobro postavljenog treninga dobijate maksimalan bonus, a u primeru loše postavljenog treninga ne dobijate nikakav bonus! Morate biti oprezni da vam fitnes ne opadne mnogo, jer će te i tada dobiti negativne penale (kazne) za trening. Svi menadzera preporučuju da trenirate (koji god da su skilovi u pitanju) dok vam fitnes ne dodje do 82% i da onda podesite dva treninga fitnesa. Ova dva treninga morate da podesite jedan za drugim i u **ISTOM** danu!!! Sa jednim fitness treningom će te dobiti +8% fitnesa. Sa dva treninga fitnesa za redom i u istom danu dobićete +18% fitnesa (+8% za prvi trening i +10% za drugi trening). Sa 3 treninga fitnesa u istom danu možete dobiti maksimum +30% fitnesa (+8% za prvi trening, +10% za drugi trening, +12% za treći trening). Ove bonuse nećete dobiti ako ne namestite treninge fitnesa jedan za drugim I u istom danu. Kada nesto promenite u treningu nemojte zaboraviti da pritisnete **"SAVE"!!!**

Na istoj ovoj stranici možete videti i "Having Fun Training Options". Tu možete naći informacije o poslednjem **"having fun"** treningu, šta možete da radite kada imate **"having fun"** trening, kao I opciju da dozvolite ili da ne dozvolite vašem menadzeru da vidi kako ste podesili treninge. Preporučuje se da podesite ovu opciju na **"Yes"** i da potvrdite klikom na **"Modify"**. Tako će te omogućiti vašem menadzeru da vas prati i ukaže vam na neke greške, ako postoje.

Zašta se koristi **"having fun"** trening? Još jedna bitna stvar u ovoj igri je moral vašeg igrača. Ako vam je moral nizak, učinak vašeg igrača na utakmici neće biti 100% (igrača ispod svojih mogućnosti). Vaš moral može da padne zbog izgubljene utakmice, ako vaš odnos sa porodicom i saigračina nije na 100%,... Tada je dobro da postavite par ovih treninga, da bi ste vratili moral na 100%. Sa ovim treningom možete podićete i fitnes. Kako da odlučite šta treba da podesite za taj trening? Automatski vam je podešeno "Rest at Home" (pogledajte gornju sliku) i sa tim podesavanjem dobijate maksimalan fitnes bonus (+4%). Ako podesite bilo sta drugo, nećete dobiti fitnes bonus. Za to je preporučljivo da vam stalno stoji **"Rest an Home"**. Znači jedan ovaj trening vam daje +4% morala i +4% fitnesa.

Moram da vam napomenem da za ovaj trening NE DOBIJATE bonus ako postavite 2-3 **"having fun"** treninga jedan za drugim u istom danu!!! **Mnogo je bitno i da ne koristite ovaj trening dok vam je igrač u razvoju, kako ne bi gubili preko potrebne skilove!!!**

Skills/Talents/Match Items

Vaš napredak na treningu možete videti na kartici "Skills", koja se automatski podešava kada otvorite stranicu vašeg igrača. Svaki skil možete istrenirati do 100.

Talents

Svaki dan će te zarađivati procenat od vaših skil poena. U početku će se povećavati vrlo sporo, ali kako budete starili brže će i rasti. Na početku se preporučuje da razvijate veštinu **"Consistency"**, zato što je to jedna od najvažnijih veština. Možete o ovome popričati sa svojim menadzerom i tražiti savet od njega.

Za nekoliko sezona će te imati mogućnost da “otključate” neke talente. Oni će vam omogućiti da povećate neke skilove vašem igraču ili saigračima, a neke skilove će u isto vreme smanjiti. Nećete biti u mogućnosti da “otključate” talente pre nego što napunite 23-24 godine.

Na početku vam ovo ne treba i zato ne bacajte pare na to!!! Ove stvari kupite samo ako postanete reprezentativci vaše države i ako vaš menadžer to zahteva. Svi ovi dodatci su veoma skupi i ne traju večno. Zato na početku čuvajte pare, jer će vam trebati kasnije. Sada ću vam samo pokazati kako da pronađete prodavnicu da kupite opremu i kako da ih namestite za utakmicu. Prvo, u **Shopping Mall**-u, treba da kupite **računar** da bi mogli da nadjete prodavnice van zemlje u kojoj se nalazite. Da bi ste dosli do ove prodavnice, morate da uradite sledeće: Otvorite stranicu vašeg igrača i samo kliknite na ime grada u kom se nalazite, a to možete da uradite na tri mesta (pogledajte sliku ispod).

Vi sada treba da odlučite koliko će te procenata svojih poena za komunikaciju da utrošite kako bi maksimalno razvili prijateljstvo sa željenim igračem. Što više procenata, brže će rasti vaše prijateljstvo. Naravno nikada nemojte stavljati 100% na jednog igrača!!! Stavite 3-4% dok vaše prijateljstvo ne dođe do 100%, pa posle postavite samo 1-2% kako bi održavali prijateljstvo na visokom nivou. Kada napravite bilo koje izmene na ovoj stranici, obavezno kliknite na **"Send"** na dnu!!! Oprezno samo sa trošenjem ovih poena, jer ih dobijate samo 150 dnevno.

Poslednja stvar je samopouzdanje. Samopouzdanje može biti:

- Ispod proseka (Below Average)
- Prosečno (Average)
- Visoko (High)
- Vrlo visoko (Very High)
- Preterano (Exaggerated)

Za vreme utakmice je najbolje da vam samopouzdanje bude na **Visoko** ili **Vrlo Visoko**. Takođe se očekuje od vas da pomognete svojim saigračima sa pozitivnim (zelenim) interakcijama, kako bi i njihovo samopouzdanje bilo na istom nivou!!! **Nemojte koristiti negativne (crvene) interakcije za vaše prijatelje**. Zelene interakcije su podeljene na dva dela: nekoliko njih služi da se podigne samopouzdanje, a samo jedna da se spusti (**Advise about the bad effects of over-confidence**). Ove interakcije možete koristiti samo jednom nedeljno za svakog igrača.

Match Orders (Naredbe za utakmicu)

Da bi ste videli stranicu namenjenu za naredbe morate kliknuti na **Player** → **Match orders**. Pre svega, opciju **Show Individual Orders to human manager** treba da podesite na **Yes** tako da će vaš menadzer moći da vidi da li ste dobro podesili ove naredbe. Ovu stranicu morate da proveravate pre svake utakmice, da bi ste videli da li je došlo do nekih promena u odnosu na prošlu utakmicu. Ako ima promena, videćete crveni kružić u nekim naredbama koje je promenio vaš menadzer. Vaša je obaveza da namestite te naredbe onako kako vaš menadzer to želi ili da jednostavno kliknete na **“Accept my manager orders”** i da kliknete na **Modify** (na vrhu te strane). Ove naredbe za utakmicu su naj važniji deo ove igre, jer ako ne prihvatite naredbe vašeg menadzera (samim tim i njegovu taktiku) za tu utakmicu, vi će te biti naj slabija tačka tima i bićete krivi ako vaš tim doživi poraz. Ovo je bila prva (starija) metoda. Druga (novija) metoda je program koji je napravljen da olakša posao menadzeru kada dođe vreme za promenu naredbi za utakmicu. Većina menadzera koristi program za ove naredbe i vi će te samo dobiti poruku sa linkom na koji treba da kliknete. Automatski će vam se podesiti naredbe i sve će to trajati samo par sekundi. I ako postoji ovaj program, ima dosta menadzera koji neveruju u to i koristi će staru metodu kako bi vam poslali naredbe!!! Jednostavno, Vi morate da proveravate svoje naredbe pred meč za obe ove metode. Ovako izgleda stranica za naredbe:
